

# Apricus Sentinel S5

Advanced Solar Controller

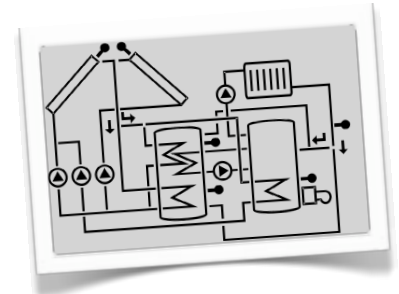

## Professional Features

- Backlit LCD
- 9 schematics to choose from
- kWh energy meter
- Fully certified in North America
- Designed for Apricus evacuated tube collectors
- 4 inputs for sensors
- High accuracy PT1000 sensors
- Extra long 20m / 65' collector sensor cable
- 2 outputs for pumps and valves
- Neat and compact design makes it easy to install
- Perfectly integrates into Apricus pump station
- 3m / 10' power cord attached
